

# Healthy Places By Design

## Bikeability/Walkability

Would you like to see changes to the health of your community? Come be a part of policy changes to the comprehensive plan for Pawtucket.

Healthy Places By Design will be holding a series of workshops in the upcoming months to discuss how we can improve our streets, community gardens, parks, bike paths and more.

If you or any one you know is interested in any of the topics on this flyer come join us at the **Kick off event** on **October 5th from 6-7pm**, at the **Black Stone Visitor's Center** located at **175 Main St, Pawtucket RI**. Food and refreshments will be provided for this event. This is your opportunity to be part of the process for healthy change in Pawtucket.

## Healthier Streets

## Parks & Recreation
